During the 2015 annual gathering we will explore the House of ToP through four arenas:

- Building the Foundation
- Creating our Living Space
- Living in the House of ToP
- Using our Tools

ABOUT THE THEME

At the core of our House of ToP is the foundation which includes the slab, the exterior walls and roof. In this arena, we will explore what all these “must haves” are for building a solid business foundation. There will be opportunities to learn how to grow the ToP brand, to develop vibrant marketing practices, and even create a website or facilitate virtually.

In our living space, the environment needs to ignite our creativity and motivation much as the furniture, drapes and floor coverings do. In this arena, we will explore how to create the ideal environment for cultivating facilitation and ToP methods so that limitless opportunities are available to practice, teach and infuse ToP methods into the surrounding culture.

Living in the House of ToP means becoming competent in the ToP methods, taking multiple courses and engaging in a life-long journey of constant growth. In this arena you will find workshops on certification, mentoring opportunities, and ways to deepen your practice.

In the fourth arena, Using our Tools, we explore how we might use existing techniques to intensify our own prowess as well as expand the ToP Network and the use of ToP methods world-wide.

January 9-12 in Aurora, Colorado
Register Now*
www.top-network.org
*Early Bird rates end November 15th

Imagine a house, the House of ToP, so expansive we can all create and thrive within it.

We are soliciting interactive workshops that tap into these arenas and specifically into the details. (see next page)
In addition to attending, there are several ways to contribute to this year’s theme:
• conduct pre and post gathering sessions
• Present/facilitate during a concurrent gathering session
• participate in the plenary sessions.

There are also opportunities for other innovative ways to contribute:
• lead an ad hoc mentoring circle
• lead a book study group
• volunteer to help with logistics
• support personal and team action planning efforts
